

**War- Report**  
**November 17 2025**

You're kidding yourself if you think the operation isn't going EXACTLY ACCORDING TO PLAN

Remember what you've learned about the art of war; appear weak when you're strong; appear divided when you are unified

"Make a sound in the east, then strike in the west"

Confusion and manufactured division are necessary to camouflage where the next moves are coming from

NOBODY has successfully predicted the way this operation would play out...and that is EXACTLY why it has been so successful

This is 5GW—the art of misdirection

Don't get drawn into the movie

Instead, recognize that...  
NOTHING IS AS IT SEEMS

It had to be this way and the war is not over yet

Cleanup of the lower tier of the cabal, while simultaneously breaking down the matrix by forcing people to talk about the subjects that actually matter are the hardest parts of the operation...which is why the fog of war is thickening

The WH are forcing the spotlight to exactly where it needs to be in order to manipulate the minds of the "target audience" on both the left and right; it's vital to recognize that the false political paradigm of democrat vs republican is eroding in the process...

As all of this continues to play out, people are focusing less on partisan politics and more on the core issues that have both weaponized the system against the people and prevented our elected officials from actually representing US, not special interests

That's what unity looks like folks, even if it has the appearance of division

Don't worry about Trump playing golf with Lindsey Graham, disavowing MTG or the optics of his pro-Israel administration

Rather ask yourself, "if Trump were really on the side of the Zionists and neocons, if he were truly aligned with the DS, would we really be having an Israel First vs America First battle within the MAGA movement and even more broadly across the political spectrum?"

Wouldn't that power be used to shift attention away from the one subject that we have never been able to have an honest conversation about? And even though we are seeing the optics of an attempt to censor, isn't it rather obvious that the voices grow louder as time goes on? Wouldn't the Epstein issue be memory-holed by now?"

And yet so many people are bewildered by how Trump is operating

Here's what they fail to grasp: from the moment he descended the escalator, Trump was characterized as one of the most divisive figures in history by the MSM and (in accordance with the principles of Sun Tzu) the WH have used that to their advantage; this is why he positions himself on the wrong side of an issue...to draw those who perceive him as the enemy to the right side without them even realizing how they're being manipulated

This is all tactical maneuvering

It's not about taking sides or getting caught up in perceived loyalties...all of that is just optics to advance the true objectives of the mission

First you engineer the division on an issue to highlight the problem, then you expose the truth and win the hearts and minds of the people

All of this is playing out with military precision

Meanwhile, the RICO grand conspiracy is gradually coming into the light with every passing day, the military is deploying and the indictments have already begun

WE ARE WINNING!

The boomerangs will return, no matter how convoluted the chessboard may seem

All of this was planned long ago

That's why Q told us:

"Deeper we go, the more unrealistic it all becomes.  
The end won't be for everyone.  
That choice, to know, will be yours."

Choosing to know means trusting the plan...it's that simple

The WH have this all mapped out and the hammer will drop at exactly the right time... not a second before

Disclosure and accountability are coming, but not in accordance with our timeline or expectations

In the meantime, take a breath and allow yourself to rise above the noise

Don't focus on the optics; focus on the subjects that aren't going away

Israel, Epstein, and the demand for justice
