

The Federal Reserve is not a government agency. It is a rogue cartel of private bankers that controls the money supply, manipulates interest rates, engineers recessions, and pays ZERO TAXES. They print wealth for themselves while we drown in inflation and debt.

#### THE FEDERAL RESERVE: AN UNTOUCHABLE EMPIRE

This syndicate operates outside the Constitution, outside Congress, outside the will of the people. It answers only to globalist elites and banking dynasties that have enslaved nations for over a century. Their weapons: money printing, interest hikes, inflation manipulation, and financial collapse. Every crisis is engineered. Every boom and bust serves them.

#### TOTAL TAX EXEMPTION — COMPLETE IMMUNITY

Under 12 USC 531, the Fed is fully exempt from all taxation—federal, state, and local. While we break our back paying taxes, the Federal Reserve hoards billions without returning a cent. This is not capitalism. This is financial slavery.

#### NEVER AUDITED — HIDING THE BIGGEST CRIME IN HISTORY

The Federal Reserve has NEVER been fully audited. Why? Because a real audit would reveal the largest theft in modern history. Trillions moved in secret. Wealth siphoned to elites. Policies designed to keep the people poor, indebted, and submissive.

## THEIR ENDGAME: TOTAL ECONOMIC CONTROL

They want us cashless. They want us chipped. They want every transaction monitored, every dollar controlled. Their goal is permanent debt slavery. An entire nation of workers chained to a banking machine that answers to no one.

## PRESIDENT TRUMP'S MISSION: AUDIT, EXPOSE, DESTROY

President Donald Trump has declared war on the Deep State. To finish the job, the Fed must be dismantled. That means:

A full forensic audit of every cent and every deal.

Immediate termination of their tax-exempt status.

An end to unlimited money printing.

Restoring sound money backed by real value.

Returning control of currency to the people, not unelected bankers.
