

BQQM! JULIAN ASSANGE CONFIRMS: Hillary Clinton's Email to John Podesta Proves Obama, Hillary Clinton, Saudi Arabia and Qatar Founded ISIS

Julian Assange has dropped a bombshell confirmation that is rocking the foundations of the corrupt Washington establishment. The Wikileaks founder pointed to a critical email Hillary Clinton sent to John Podesta that exposes the shocking truth: Barack Obama, Hillary Clinton, Saudi Arabia, and Qatar were directly behind the founding and funding of ISIS.

In the email, Clinton revealed that the governments of Saudi Arabia and Qatar, not just rogue individuals, provided the massive funding for the terrorist group. Assange called this one of the most important emails in the entire collection, highlighting how the Obama regime knew exactly what was happening. This was no mistake but a calculated strategy to create endless conflict for profit and control.

During Clinton's tenure as Secretary of State, the Obama administration pushed through the largest arms deal in history with Saudi Arabia, totaling over 80 billion dollars. These arms flowed to ISIS operatives as huge donations simultaneously filled the coffers of the Clinton Foundation from these same terror-sponsoring nations. The treasonous connections run deep and expose a global cabal operating above the law.

Now in 2026, with the Great Awakening gaining unstoppable momentum, these revelations are surfacing at a critical time. Patriots have long understood that ISIS was a deep state creation designed to destabilize the Middle East, justify military spending, and advance the new world order agenda. Obama and Clinton's role in birthing this monster led to untold suffering and death across the region.

The time for justice has arrived. As white hat operations continue to dismantle the satanic network, the full scope of this betrayal is being laid bare for all to see.

The storm is upon us, and the deep state is crumbling under the weight of its own crimes. Trust the plan as the light exposes every dark secret and brings the guilty to account.
