

IAN SAMS ARRESTED FOR TREASON 240820

The US Army Criminal Investigation Division (CID) arrested regime spokesperson for oversight and investigations Ian Sams Tuesday evening at a Chicago mall near the Democratic National Convention, a source at the CID's Fort Liberty office told Real Raw News. The arrest was based on proof Sams had ordered the shipment of rigged voting machines White Hats seized last month.

Sams was a Deep State pawn. From April 2015 to November 2016, he served as a Rapid Response Aide for the Hillary for America campaign, then, in 2019, joined the Kamala Harris for the People crusade. In 2021, Biden named him Deputy Assistant Secretary for Public Affairs, COVID Response, under the Department of Health and Human Services. And in May 2022, he transitioned to the Office of Counsel to the President, a position he still holds.

He recently announced he would leave his job and serve the Harris campaign as a top spokesperson.

Our CID source said Sams is an agent of evil, a one-time pawn whose servitude to the Deep State earned him a promotion from pawn to knight, a junior handler who, had he gone unchecked, would've advanced the Deep State's enslavement of God-fearing American patriots.

As reported in July, White Hats intercepted a truckload of "Chinese voting machines" bound for Michigan. The machines resembled Dominion's and had been rigged to overcount Democrat votes and undercount Republican votes. A month-long investigation into the origins of the voting machines revealed they had not been manufactured in China. Rather, a midsize electronics corporation in the US had built them at Sams' request. Our source declined to name the firm, citing active investigations and prosecutions, but said the company's owner identified Sams as the purchaser. The owner told CID investigators that Sams demanded the machines be built using parts sourced from China and Ukraine. When the confused owner asked why, Sams told him, "It'll make you a lot of money," promising to order an additional 10,000 units, provided the initial lot worked per his requirements.

Last week, CID learned that Sams would accompany the Harris campaign to Chicago, a derelict city rife with crime and pestilence. With a sense of trepidation, CID decided to pursue him to a city overrun with malevolent federal forces. CID

estimates two-thirds of the FBI's 10,100 special agents and 5,000 ancillary personnel, as well as 2,200 Homeland Security agents, are currently in the Windy City.

Just four CID warrant officers posing as Harris supporters—they begrudgingly wore "Harris-Walz 2024" shirts and ball caps—arrived in Chicago Monday afternoon, as the DNC kicked off.

"We felt sending a couple of inconspicuous guys was the best way to deal with the Sams problem. Their orders were to arrest Sams only if they could grab him without getting themselves caught. And that was a tall order. Chicago is a Deep State stronghold," our source said.

Our source added that CID knew which hotel Sams was staying at and had hoped to capture him there Tuesday night, when he'd be drowsy and alone in his room. But a fortuitous opportunity arose late Tuesday afternoon when CID spotted Sams, by himself, climbing into a UBER outside the hotel. CID tailed Sams' ride to the Woodfield Mall, Chicago's largest shopping center where he was arrested for TREASON which carries a DEATH PENALTY and now he is on his way to GITMO for the Military Tribunal.
