

# *The Beauty of Holiness*

*"The beauty of holiness, the perfection of being,  
imperishable glory, - all are Mine, for I am God."

## *Dedication*

This work is dedicated to Mary Baker Eddy, Discoverer, Founder, and Leader of Christian Science.

God, Spirit, the great architect, revealed to Mary Baker Eddy the infinite calculus defining the line, plane, space, and fourth dimension of Spirit. This revelation shows forth the universe, including man, in its scientific import. May those with vision stand in awe of the glories revealed, “unfettered by human hypotheses.”
