

OBJECTIVE

The compilation of this work is to make students aware of Mary Baker Eddy's final edition of Science and Health with Key to the Scriptures that was published in 1910/1911.⁵ This work is designed to enforce and explain the genius and structure of the greatest book ever presented to humanity. In the words of Albert Einstein:

“Science and Health is beyond this generations’ understanding. It contains the pure science. And, to think that a woman knew this over eighty years ago.”⁶

POINTS TO PONDER

1. At Mary Baker Eddy's passing on December 3, 1910, the Science and Health with Key to the Scriptures was intact and the “design of God”⁷ was very clear to those who could spiritually discern it. Was it correct to change this design to fit the times and does anyone have the authority to do so without the author's approval?
2. Mary Baker Eddy clearly stated, “I was a scribe under orders.”⁸ In *The First Church of Christ, Scientist and Miscellany*, she refers to God as being the author of Science and Health with Key to the Scriptures.⁹ In these latter days, has the perception of Mrs. Eddy been changed?
3. If Life, Truth and Love make the divine order, has this sacred order been broken?
4. What repercussions might arise should this divine order be tampered with or modified?
