

Objective

To make the Christian Science field aware of the current questionable dictates being made by the Christian Science Board of Directors of the Mother Church and its President.

Included are statements from Mary Baker Eddy's writings supporting the spiritual facts concerning the situation now facing the Christian Science field. In this section is a letter showing that early after Mrs. Eddy's passing, December 1910, there was a conspiracy developing at the headquarters in Boston. There is also an article detailing the plans that were implemented by the Boston organization. The last section contains letters and two summaries of the meeting held by the department now known as The Writings of Mary Baker Eddy, in Houston, July 20-25, 2000.

Points to Ponder

1. Did the Christian Science Board of Directors have the authority to make changes in the Science and Health? If so, where did they receive this authority to modify and extend Mrs. Eddy's divinely inspired textbook?
2. Does the Christian Science Board of Directors have the authority to change the foundation of Mary Baker Eddy's Church from a spiritual to material one?
3. Have the planned changes over the years been so subtle that no one detected them? If exposed, the person has been branded a dissident.
4. Does any organization have the authority to seize an author's work and adulterate the contents?
5. Where is Mary Baker Eddy's Church and place in this new plan? Is this the Church that Mrs. Eddy left to bless all mankind?
