

Scientific Statement of Being

Question. — What is the scientific statement of being?

Answer. — There is no life, truth, intelligence, nor substance in matter. All is infinite Mind and its infinite manifestation, for God is All-in-all. Spirit is immortal Truth; matter is mortal error. Spirit is the real and eternal; matter is the unreal and temporal. Spirit is God, and man is His image and likeness. Therefore man is not material; he is spiritual.

False Claims Annihilated

Who, that has felt the perilous beliefs in life, substance, and intelligence separated from God, can say that there is no error of belief? Knowing the claim of animal magnetism, that all evil combines in the belief of life, substance, and intelligence in matter, electricity, animal nature, and organic life, who will deny that these are the errors which Truth must and will annihilate? Christian Scientists must live under the constant pressure of the apostolic command to come out from the material world and be separate. They must renounce aggression, oppression and the pride of power. Christianity, with the crown of Love upon her brow, must be their queen of life.
