

Mrs. Eddy writes,

“The real Christian Scientist is constantly accentuating harmony in word and deed, mentally and orally, perpetually repeating this diapason of heaven: ‘Good is my God, and my God is good. Love is my God, and my God is Love.’” (Mis. 206:19)

We can declare often:

Divine Mind is my Mind and my Mind is God.

God is my Mind and my Mind is good. I have an intelligent Mind, a good Mind, a wise, perceptive, discerning Mind, a clear Mind, a joyous, happy Mind.

Mind is God, all-acting, all-wise, all-loving, all-knowing, all-seeing.

Divine Mind is enthroned in my consciousness. Mortal mind and matter and personal sense are not enthroned. Ignorance and apathy and materiality are not enthroned in my consciousness. Good is my Mind and my Mind is good.

Mind is my God and my Mind is good. Divine Mind is enthroned, etc. This is the Word of God.

We have to change the subjective thinking we have of these seven names from personal sense to spiritual sense and see ourselves and others as spiritual individualities, not personalities. This way is the only way. It is the way the Bible characters walked with God and ascended.
