

2 of 7 SPIRIT - DIAPASON OF HEAVEN

We must declare often that Spirit is not an invisible personality inhabiting a material body. Spirit has no other meaning than God, and substance. We must declare there is only one Spirit and that is God. Spirit is my God and my God is Spirit, individual, incorporeal, immaterial. Spirit is enthroned in my consciousness. Matter and personal sense are not enthroned. We must declare these statements for ourselves in our work.
