

4 of 7 PRINCIPLE - DIAPASON OF HEAVEN

We must hallow this word “Principle” as a name for God. Declare often: there is only one Principle, and this is my infinite, all-present, all-powerful, all-knowing, all-acting, all-loving Principle. Principle is my God and my God is divine Principle. Good is my Principle and my Principle is good. Divine Principle is enthroned in my consciousness as my God. Persons and personal sense are not enthroned. This is the Word of God. Declare all the truths you know about Principle. Principle as God must be subjective in your consciousness. Claim this revealed Principle as yours, and as your subjective thought. This ever-operative, unvarying, enduring, governing, exhaustless, sustaining Principle is enthroned. So-called mortal laws are inoperative and unreal.
